

## Short biographies for the NFDI Satellite Event @ JCDL2022

- **Stefan Buddenbohm** is contributing to research infrastructure projects since 2009 at the Göttingen State and University Library. He's a long-time DARIAH aficionado and currently working in the NFDI consortium Text+ in the infrastructure/operations task area. He is particularly interested in community engagement.
- **Jürgen Kett**: head of the German National Library's Agency for Standardisation (AfS, DNB) and accountable to open, enrich and modernize the Integrated Authority File (GND)
- **Desiree Mayer**: Desiree Mayer studied musicology and philosophy at the Eberhard Karls University in Tübingen and received her doctorate in musicology from the Ludwig Maximilian University in Munich. As a scientist, she has been working e.g. at the Austrian Academy of Sciences in Vienna for the Digital Catalogue of the Works of Anton Bruckner. Since February 2021 she is working for NFDI4Culture at [Sächsische Landesbibliothek – Staats- und Universitätsbibliothek Dresden](#) (Saxon State and University Library Dresden, SLUB).
- **Regine Stein**: co-head of the Research & Development Department of the Göttingen State and University Library and Infrastructure/Operations speaker of Text+. She is involved in standardisation work for documenting cultural heritage, focusing on data quality aspects of integrating and linking the information.
- **Thorsten Trippel**: Part of the Text+ coordination team. Studied English and Mathematics at Bielefeld University, Germany. For his PhD thesis, he re-used lexical resources provided by other researchers. Rich metadata and semantic interoperability are part of his major interests.
- **Barbara Fischer**: GND Liaison Counsel at the German National Library's Agency for Standardisation (AfS, DNB). She strives to increase the quality of metadata through Authority Control to foster retrieval and linked open data.
